

Dear comrades,

on the occasion of the 95th anniversary of the KKE the Central Committee of the New Communist Party of the Netherlands is sending you warm fraternal greetings.

We hope the Communist Party of Greece will become stronger and will have more influence nationwide and internationally.

Now capitalism is in deep crisis many possibilities for a successful struggle of the working classes are growing, but also many new dangers occur. We therefore need more than ever strong international unity based on Marxism-Leninism, but also revolutionary patience to overcome the many differences and to find solutions for the many questions in the communist and workers parties.

We wish you many fruitful and successful events on the occasion of the celebrations.

Long live socialism,  
long live Marxism-Leninism,  
long live international solidarity,

long live the class oriented working class struggle

Comradely Greetings,

Wil van der Klift, International Secretary
